TARGET

Quixadá, Pokhara, Manilla, Piedrahita, Fiesch, Annecy, Governador Valadares, Owens Valley, Saint-André-les-Alpes... Are you constantly thinking of flying big sites? The EN-B Base was designed to take you there. It will look after you as you push yourself to places you have never been; it will react the way you have always expected and it will perform really, really well. So, put on your speed arms, charge your batteries, and be the first to base with the Base!

DESCRIPTION

Bruce put his 'all' into this high-performing EN-B rated paraglider. It carefully treads the thin line of maximum safety and impressive performance. Bruce Goldsmith handling, a unique nose design with mini-ribs and Cord Cut Billow all make the Base a great package of stability and performance.
